

## Directions to the Island Iris Nursery

Navigate to intersection of Harrison Avenue and Marconi in New Orleans (big blue arrow). Marconi is the western boundary of the Park. Harrison runs through the Lakeview neighborhood and transects the Park. The nursery is located just inside the Park and just off Harrison behind the NOPD stables (red marker).

Look for the police stables on Harrison Ave. This complex is set back from the road, and this architectural drawing does not show actual trees or the inconspicuous gravel driveway. Take the drive and veer RIGHT around the stables.

From Harrison Avenue, drive into the NOPD stable complex, and immediately veer right into the wide gravel parking area to the side of the stable building. Go to the back, and when you are facing the dog kennels, you will see an inconspicuous one-lane gravel road to the right, which leads onto the island.

On the island, drive past the fenced area on the left, and at the end of the fence is a drive-through gate. It is normally locked but will be open for a GNOIS event. The irises (big red star) are located diagonally across the big rectangle of gravel. You can park in any open area on the gravel.
